

# MOHAMMAD AMAAN

amaansid909@gmail.com | +91-9305149463 | [github](#) | [linkedin](#)

## Skills

---

**Problem Solving Skills** : Data Structures and Algorithm in C++

**Full Stack Web Development** : MERN, PERN development, C# .NET development, SQL, Typescript, Playwright, ADO  
**AI**: Agentic AI, MCP servers, SDD framework

**Databases** : PostgreSQL, SQL Server, MongoDB

**Related Coursework** : Object Oriented Programming, DBMS, Computer Networks, Operating System, System Design

## Experience

---

### MAQ Software Pvt ltd (1+ year)

Role: Software Engineer 1

- Full Stack Web development in (C# .NET, Javascript) - Backend, (HTML,CSS, WPF, ReactJs) - Frontend
- Created AI agents with MCP server integration to access ADO resources using various MCP tools for playwright automation.
- Created SDD (Speck it) framework with MCP server integration for playwright automation.
- Resolved security vulnerabilities in the .NET code like XSS, CSRF attacks, Command injection, Weak Encryption(DES to AES), Weak Authentication(Captcha, Rate limiting), etc. Extensive use of Github Copilot for every stage of SDLC.
- Performed Regression testing, Smoke testing, playwright testing, implemented Feature Flag for testing, created build pipelines.

## Projects

---

### Neural Machine Translation using Transformer for low resource language([link](#))

- Used Transformer based model to translate source(English) to target(Urdu),target to source at word and sub-word level.
- Used data-augmentation techniques like back translation and weighted-back translation to increase the corpus size and improve model's accuracy.
- Evaluated model performance using the BLEU score.
- Score improvement by 22+ based on state-of-the-art evaluation.

### Classroom Manager

PERN, shadcn/ui, Refine

- **Role Based Access Control**: Supports distinct views and permissions for Students, Teachers, and Admins
- **Data Management**: Includes comprehensive CRUD operations for Departments, Subjects, and Classes, featuring advanced filtering, search, and pagination
- **Enrollment System**: Implements a secure join-code system allowing students to enroll in classes seamlessly
- **Dashboard Analytics**: Provides real-time insights into metrics like enrollment trends, user distribution, and subject statistics

## Education

---

National Institute of Technology, Hamirpur

2021-2025

B-Tech : Computer Science and Engineering

CGPA : 8.17
